

Responses to Questions for the Bay Trail Wayfinding Sign RFP

Q1: Does the Bay Trail Project desire a 10 year warranty on the signs proposed under this RFP?

R1: The length of warranty for the signs fabricated under this RFP will be part of the evaluation considerations on all proposals. Ideally, we would prefer a minimum 7-10 year warranty on the signs fabricated utilizing the fabrication processes specified in the RFP, however we are open to alternative lengths of warranty.

Q2: Do the signs need to be reflective or non-reflective?

R2: We are specifying non-reflective signs.

Q3: Please provide the PMS colors?

R3: We inadvertently specified CMYK color codes for the sign colors under Appendix A (Scope of Work) in the RFP instead of PMS color codes. The PMS color codes under Appendix A (Scope of Work) should be PMS 278 blue, PMS 1355 yellow, and PMS 3305 green for the three square Bay Trail logo sign types and should be PMS 1355 yellow and PMS 3305 green for the seven circular Bay Trail arrow sign types.

Q4: Will pictures and samples suffice to fulfill the requirement to provide three different samples of signs fabricated by the contractor submitting a proposal?

R4: We are requesting that all proposals include three different physical samples of signs fabricated by the contractor submitting the proposal. Photo samples in addition to the three physical samples may also be provided as part of the proposal.
